Choosing a musical instrument

By Simon Taylor

Last weekend, I heard my cousin Ella playing the piano. She can play the piano very well - I was impressed! But it made me feel a bit sad too because I can't play any musical instruments. I want to learn to play something, but I'm confused about which instrument to choose.

This week, I'm meeting up with people who play different instruments. First, I'm visiting my friend Xander, who plays the guitar. I like the guitar but I'm not sure that it's the one for me because it might be a bit too quiet. He also plays the drums, which look like fun but may be too noisy! If I listen to them it will help me decide.

The other instrument I want to try is the trumpet. My dad and I are going to a music shop in town on Saturday and I'm having a quick lesson there. The only problem is that it might be too noisy as well! Another friend of mine, William, is doing a video talk tomorrow. He's talking about how the guitar, piano and trumpet make you feel when you play them and listen to them. I think it sounds interesting because music can change someone's mood, and it might help me decide.

- 1 Simon felt sad because ...
- A he thinks Ella plays the piano quite badly.
 - B** he would like to be able to play music.
 - C he wants to play the piano with Ella.
- 2 Simon is meeting Xander because ...
- A he wants to learn the guitar.
 - B he wants to borrow his friend's drums.
 - C he wants to hear what the guitar and drums sound like.
- 3 What does Simon say about the music shop?
- A He thinks the lesson is going to be too quick.
 - B He wants to try the trumpet.
 - C His dad wants to try a noisy instrument.
- 4 Simon wants to listen to William's talk in order to ...
- A help him decide which instrument to choose.
 - B learn more about how to play the guitar.
 - C change how he feels.
